

As we look forward to bringing back those workday routines that symbolize the reawakening of our economy and a global return to business, we are here to support you in making those daily interactions safe and healthy.

We find ourselves in a time of new awareness that a virus can stop the world as we know it. Our easy to install Workbench Screens can provide you with the protection to get back to those workday routines with the proper defenses in place to keep your employees healthy and productive.

- Made from clear 1/4" thick acrylic
- Two acrylic panel options available: clear and frosted
- Easy to clean & sanitize
- Lightweight
- All hardware is included; no drilling required.
- Easy to install and remove (no damage to the work surface or unistruts) Order Unistruts to add protective screens to your Basix Workbench
- Custom sizes & materials available upon request

Any Formaspace clients who owns a Basix or a Benchmarx should consider having a Protective Workbench Shield.
